

Lantern Lamp with remote control

Basic Information

Item Name: Lantern Lamp
 Item No: 52-0044
 Item Size: 125x125x167mm
 Input Voltage / Current: 5V === 1000mA
 Power: 0.45W
 Battery Capacity: 1200mAh
 Material: PS, Polyester

How to use

1. Please fully charge the product before using it for the first time. Charging voltage / current DC5V ===1000mA. Power banks with equal voltage can be used to charge it as well. It takes about 3 hours to fully charge the product. (Actual charging time is based on the charger's input current). When charging, red indicator light is on; after fully charged, green indicator light is on. After fully charged, the brightest warm light can be used for about 10 hours.
2. Power Switch: press the power switch to turn on warm yellow light; press the power switch again, the light is off.
3. This product adjusts the brightness and sets the time through the remote control. Please follow the instructions of the remote control. (The remote control range is about 5 meters)
4. During the remote control process, the remote control must be turned "ON".
5. In the remote control process, the power is turned on. Set the time with the remote control. When the timing starts, the indicator light next to the USB charging port turns blue. When the timing is over, the indicator is off.

6. After the last command of the remote control is finished, the remote control function will be automatically turned off without any operation within 4 hours. Press the power switch to restart the remote control function.
7. After fully charged, please cut off the power in time. If it's not used for a long time, please turn off the light completely with the power switch to reduce battery drain.

Attentions

1. Kids under six should use this product under adults' supervision.
2. Do not disassemble the internal device, in case of damaging product.
3. If it's not used for a long time, please put the lamp in a dry condition.
4. Product (also remote control) have to be utilized according to the local environmental protection regulations.
5. The light source is not replaceable; the whole lamp should be replaced when its lifetime comes to end.

Warranty

1. Warranty covers production, technical and quality issues, under the following conditions:
 - the product was used in accordance with the instructions and properly maintained
 - only recommended accessories by the manufacturer were used (including charges no bigger than DC5V===1000mA)
 - the product has not been disassembled or modified
 - after first symptoms of fault, user stopped using the product
2. Damages caused by overloading of the product due to excessive and / or improper usage void this warranty.
3. Warranty does not cover mechanical damages unless manufacturing or material defects presence claim.
4. Micro USB cable defects can be fixed in case of joint damage.
5. The warranty period is 1 year from the date of purchase.
6. Claim must be legibly written and attached to the proof of purchase in case of claim report.

The crossed out wheeled bin symbol is used to inform consumers not to dispose of waste electrical and electronic equipment with other refuse. For more information about where you can drop off your waste equipment for recycling, please contact your local city office, your waste disposal service or the nearest retail outlet.
